## IMPOSSIBLE TO LEVY FAIR OCCUPATION TAX: WUELLER

A researcher for the Joint State Government Commission of Pennsylvania said in a talk at the courthouse Tuesday evening "it is virtually impossible to levy an equitable occupation tax" and called the schedule of occupation assessments to be put in force by the Adams County commissioners next January 1 "archaic and obsolete."

Under questioning later, the speaker, Dr. Paul H. Wueller, hastened to say he was "not ridiculing the commissioners for their was an impossible task."

Dr. Wueller talked on "Alternative Tax Sources" after an Adams County Fair Tax Association had been organized in an unusual way during a brief business session. Articles of agreement signed by 27 persons, about a third of the audience, state the organization's opposition to "unfair occupation taxes."

Dr. Wueller spoke for a half hour and then answered questions for nearly an hour. During that period he said there "is no real basis for judging the fairness of any tax"; said income taxes generally should be left to state or federal governments but that if local taxing units turn to an earned income tax it should not be by single districts but in groups of districts.

He suggested that tax bodies "ask Francis Worley to have the ceiling on head taxes raised to \$25" (Continued From Page 1)

## 40 COUNTIANS TAKE APPEAL PRAISE BY 2

Forty countians visited East Berlin Elementary School Tuesday evening to appeal their new occupation taxes.

The county commissioners, sitting at the East Berlin school as part of a county-wide tour to make it easy for countians to appeal the occupation assessments given them, found comfort in the action of two men who came to the school to tell the commissioners they believe the county is "on the right track" in its new occupation assessments. The commissioners said they greatly appreciated the voiced confidence.

This evening the commissioners will be at New Oxford High School from 7 to 10 o'clock to permit appeals by persons residing in that area. Thursday night at the same hours they will be at the Conewago Elementary School in Midway.

This morning the commissioners at their meeting in the courthouse decided against providing any funds toward the cost of property damage anticipated in work of the state Highway Department in the area along the Carlisle-Gettysburg Rd. near the Griest fruit stand at Flora Dale. The work is designed to improve visibility of a road entering Route 34 atop the hill at that point. The damages are expected to total \$1,350.

This afternoon additional appeals from real estate assessments will be heard by the commissioners at the courthouse.

## TELLS CLUB ABOUT MENTAL HEALTH ISSUE

Rev. Dr. Paul L. Reaser, past president of the Adams County Mental Health Association, told the Exchange Club at a meeting Tuesday evening in the Lamp Post Tea Room that "we as individuals can help the mental health problem by learning more about it, by dealing directly with the problems."

Speaking on "Mental Health," the local pastor traced the areas of advancement of mental health in Adams County, noting particularly the activities of the late Miss Margaret McMillan, who was instrumental in setting up the first mental health clinic in Gettysburg in 1926, "the only such unit of its kind in the state at that time."

After a few years lapse during the depression, Rev. Dr. Reaser said, the clinic was resumed and continued until it closed temporarily last July. "I don't foresee in the immediate future when it will reopen. A lack of personnel is probably the biggest problem at the moment," he said.

The first time a patient visits a clinic, Rev. Dr. Reaser said, he is given a series of tests which usually lasts two or three hours. The following month, the case is analyzed by a psychiatrist or psychologist and proper treatment is given. "On the county level, about the only thing we can do is to give diagnostic tests while treatment, if need be, is done elsewhere," he added.

**EXPLAINS ITS MEANING**  
The speaker explained the meaning of mental illness, noting that the concept has changed over the past 50 years. "It is a (Continued On Page 2)

## TWO ALLEGED THIEVES ARE PUT IN JAIL

Two men were placed in the county jail Tuesday, one charged with burglary of Biglerville High School in 1959, the other accused of taking a pocketbook containing \$200 at an upper county labor camp.

Delbert Campbell, 31, Cumberland, Md., was brought to the county jail Tuesday afternoon from the prison at Jessups, Md., where he had completed 27 months of a three-year sentence on a charge in Maryland.

State police allege Campbell was the man who broke into the Biglerville High School on May 16, 1959, and removed cash from milk (Continued On Page 2)

## Landmark Is Razed In One Month

It required the work of several workmen one month to raze the former Eagle Hotel (later the Adams House) and the Eberhart Apartments at the corner of Chambersburg and N. Washington Sts. Above is a photograph of the cleared area which will soon house a service station. Workmen started tearing down the fire-damaged structure on August 19 and on Tuesday, September 19, the work was completed and the heavy machinery moved away. (Times photo)

## INDUSTRIAL PARK PLAN IS URGED ON C. C.

Purchase of an industrial park to provide "something well planned, attractive and interesting" to show potential industries was urged by Chamber of Commerce President Julian Estep at a meeting of the industrial committee of the local Chamber Tuesday afternoon at the Lamp Post Tea Room.

Estep said purchase of the industrial park area was one of the recommendations of the directors of the Chamber of Commerce. He urged that the Industrial Development Corporation recently chartered for Gettysburg by the courts "take the industrial park program as a project and challenge."

J. Howard Gaines, chairman of the industrial committee, said his committee has listed 125,000 square feet of factory buildings available in the area at the present time and that his committee will function both to seek new occupants for existing available factories as well as to seek to secure new industry for the proposed industrial park area. He said such a development would provide the committee with facilities for those industries which might wish to utilize existing buildings, as well as those seeking new plants in the proposed industrial park.

**5 INDUSTRIES CONTACTED**  
Gaines asked the data committee of the industrial committee to study methods to raise funds for the Industrial Development Corporation if it can work out plans for establishment of an industrial park.

Gaines reported that the closing of the Inductive Equipment plant here cost the town "approximately 100 jobs." Of the laid-off employees 40 applied to the state Bureau of Employment for unemployment compensation while the others apparently found work elsewhere in the area.

He also reported that the industrial committee is negotiating with five industries with the hope of interesting them in settling here.

### PRAISE ON BROCHURES

The committee expressed its appreciation to James Hayes and the Data Committee for preparation of the new industrial brochure and paid special tribute to Walter B. Lane, local photographer, for donating approximately \$150 worth of pictures including an aerial view of the town, for the brochure. A committee comprising Thomas Gibbons, William Bigham and Francis Timlin was appointed to distribute the new brochures through various agencies which will "be the most effective in promoting new industry here."

Seymour Dunn reported plans for a luncheon session with local industrial heads to complete (Continued On Page 2)

## BULLETINS

**NORFOLK, Va. (AP)** — Hurricane Esther took a poke at North Carolina's lonely outer banks today, then shifted her course to the north, easing an earlier threat to the Virginia coast.

At 9 a.m. EST, the U.S. Weather Bureau at Norfolk said, "the threat of hurricane winds to Virginia is very slight." But the populous northeastern seaboard still faced a major threat from Esther's raging winds and water. The weather advisory said it was likely that hurricane warnings from Hatteras, N. C., to the Virginia capes would be replaced shortly by gale warnings.

**DETROIT (AP)** — General Motors and the United Auto Workers union reached agreement today on a three-year contract covering GM's 350,000 hourly rated employees.

## Russia Opposes Proposal For Temporary Secretary Of U.N.; Wants 3-Man Rule

**UNITED NATIONS, N.Y. (AP)** — The Soviet Union threatened today to torpedo a proposal for a temporary secretary-general who would succeed Dag Hammarskjöld and keep the U.N. executive machinery in action.

Soviet Foreign Minister Andrei Gromyko indicated Moscow will settle for nothing less than a three-man secretariat to control the world organization.

Under the stop-gap plan, the U.N. General Assembly would name an interim secretary-general to fill the position left vacant by Hammarskjöld's death. The West and many neutrals rallied to the support of the proposal.

### FORESEE DEADLOCK

Soviet opposition heightened fears that the entire question of selecting a new secretary-general would wind up in an East-West deadlock, leaving the U.N. administration without a leader.

This latest crisis was added to the agenda of talks between Secretary of State Dean Rusk and Gromyko, who agreed to open conferences Thursday. They originally had planned to discuss the Berlin crisis.

News of the Soviet stand plunged delegates into gloom as the 99-nation assembly got down

## Hurricane Esther Pounds North Carolina Coastline

By NOEL YANCEY

**MANTEO, N.C. (AP)** — Hurricane Esther's gale winds chewed at the lonely North Carolina coastline at dawn today.

Manteo police and the hurricane coordination center at Cherry Point, N.C., were unable to make radio contact at dawn with Cape Hatteras, on the Outer Banks. "They're probably catching it now," a spokesman at the Cherry Point installation said.

At Manteo, farther north on the pencil-like sand reef strip off the North Carolina coast, winds were rising as Esther churned northward on a course about parallel to the coastline.

### ISSUE WIDE ALERT

A 6 a.m. Weather Bureau advisory placed the center of the storm 125 miles southeast of Hatteras and moving in a north and northwest direction at about 12 miles per hour.

The Weather Bureau, ordering a hurricane watch as far north as the Massachusetts coast, warned residents in that area to "be ready for quick action in case it is necessary."

Thousands evacuated the Virginia and Maryland coast areas. Esther, the season's first hurricane to menace the East Coast, churned up waves 33 feet high

The "kick off" dinner and preview of "Campaign Gettysburg" will be held next Wednesday evening in the pressroom of the Hotel Gettysburg at 7 o'clock with former President and Mrs. Dwight D. Eisenhower as the guests of honor.

It was learned today that General Eisenhower is very enthusiastic over the proposed project which will restore a great portion of the business area of Gettysburg to its Civil War appearance. He is scheduled to speak informally at the dinner.

### HAVE 116 SKETCHES

All the merchants and property owners in the first block of the four streets leading into Lincoln Square and the businesses in the second block (not the residential owners) have been invited to attend the dinner as guests of the Jaycees.

The preview of the suggested changes in the fronts of these buildings will be made during the dinner. It will include photographs of the present fronts and colored sketches of suggested changes to conform to the Civil War period. There will be 116 sketches. Private home changes will be considered at a later date.

Donald Becker, general chairman of "Project Gettysburg," said that each merchant and property owner will be able to see a picturization of his store or home front, if the suggestion is followed, in relation to other structures in his area.

### PROJECT ON SCREEN

The sketches will be projected on a screen 12x24 feet in size to enable the several hundred persons a generous view of each suggested change.

Becker said "each merchant and residence owner will receive black and white sketches of his place of business or residence and he will be able to visualize exactly how his property will look if he elects to adopt the suggested change to the Civil War era."

"No one is under obligation to accept or adopt the suggestion. Those who decide to make the change will receive a large card for display in his place of business which will state 'We're In, Campaign Gettysburg.'"

### COMPLETE BY SPRING

"Preference for contractors or suppliers will be outlined and the committee in charge will assist in coordinating the work of the contractors and suppliers so that the entire project may be completed by next spring. At that time there will be a grand opening of the project," Becker added.

Letters of invitation have been extended to more than 250 persons to attend the dinner. Reasons for attending the dinner were cited as follows:

Movie presentation of Campaign Gettysburg.

Remarks, Gen. Dwight D. Eisenhower.

Presentation of the architectural sketch of establishments.

Learn of the financial benefit to local business.

See the changed appearance of downtown Gettysburg.

Meet and enjoy the company of fellow citizens and share their pride in Gettysburg and faith in its future.

The "face lifting" or "restoration" for Gettysburg is sponsored by the Gettysburg Jaycees in co-fought here." (Continued On Page 2)

### EIGHT-FOOT TIDES

Her hurricane-force winds, reaching out 350 miles from the center in a northeast semicircle, pushed tides to eight feet above normal at some North Carolina points. The 48-mile Ocean Highway from Oregon Inlet to Hatteras was under water. Hundreds of Outer Banks residents refused to leave their fishing villages and were marooned.

As the storm swirled northward state and civil defense officials put emergency plans to work. Many low-lying coastal areas were evacuated. Huge military and naval installations were shut.

### "BIG AND DANGEROUS"

Hurricane warnings flew in the Virginia cape area, and gale warnings extended all the way to Portsmouth, N.H. A hurricane watch extended to the Massachusetts coast, including the Chesapeake and Delaware bays.

The storm, labeled "big and dangerous" by the Weather Bureau, apparently did little damage in the rich eastern North Carolina agricultural region. The flue cured tobacco crop already had been harvested.

plans for the Better Industrial Education Day program to be held in October.

instead of the present \$15 for school purposes" if they need more tax money. He said occupation taxes generally are not equitable because of the wide-spread of incomes within a classification. Noting the federal government lists 50,000 occupations, he called the county commissioners' classification of all residents into 10 1/2 groups as "an oversimplification."

School problems frequently came into the discussion and Dr. Wueller drew applause when he labeled Department of Public Instruction officials as "salesmen overselling local school districts on their school programs." He expressed the opinion local districts could refuse to go along and state officials would find themselves without statutory grounds to enforce their "mandates."

# OFFICERS "ELECTED"

At a 7:30 o'clock meeting in the court room, Assemblyman Francis Worley read the "articles of agreement and membership" of the new tax association, listing officers already "elected" and invited prospective members to sign the articles. After the meeting it was announced 27 persons had signed.

The articles state "we have elected" these officers: President, Clyde Sterner, McSherrystown; vice president, Thomas Craig, Littlestown R. 1, and C. Russell Gilbert, Biglerville, secretary. A school tax study committee also is designated in the articles and is to give a report at the next meeting next Monday evening at Bermudian Springs High School. The committee includes Robert Bolin, New Oxford R. D.; Paul Stauffer, York Springs R. 2, and Amos D. Meyers, York Springs. Membership rolls of the association are open only to the officers, the articles state. Mr. Worley is named "public information agent." Provision is made for amendment of the articles by the members.

# PRESSURE TO MOUNT

A question from the audience to whether the association believes the entire tax load should be carried by real estate was put several times to Mr. Worley and he answered by reading a section of the "articles" stating opposition to an "unfair occupation tax or any unfair tax." Discussion brought out that under the state constitution a graduated income tax is impossible and that if a wage or income tax would be adopted by school districts it would be as a general levy against all wages with no allowance for exemptions or dependents.

Dr. Wueller predicted "tax pressure on local governmental bodies will increase and the piddling returns offered by an occupation tax don't seem to offer a very adequate answer." Comments accompanying questions from the crowd indicated some felt the new occupation as-

## "WHEN YOU ARE CLOSE"

There is no other one but you... none even half as sweet... whenever I am close to you... my life seems so complete... what makes me feel the way I do... what magic things take place... whenever I am blessed to see... the wonder of your face... it's just as though I drift upon... a cloud of golden dreams... to be with you is to set sail... upon enchanted streams... strange how one smile can light my way... with faith and hope anew... that's how it is when I receive... a tender smile from you... now I have told you how I feel... when you are close to me... you are the master of my heart... your love is heaven's key.

Colts Host Lions  
In Pro Game Sunday

A Detroit team that has over the past year established itself as a mighty defensive juggernaut moves into Baltimore's Memorial Stadium Sunday to engage the Colts in a duel of unbeaten NFL squads.

Spearheaded by perennial All-Pro linebacker Joe Schmidt and a ferocious line quartet of Bill Glass, Alex Karras, Roger Brown and Darris McCord, the Lions' defense spurred the team to a 7-2 finish last fall, two of the victories being claimed at the Colts' expense. Coach George Wilson's charges wound up second behind Green Bay in the Western Conference and knocked off Cleveland 17-16 in the first annual playoff bowl in Miami. Rated highly as contenders this year, the Lions launched their title drive in stunning fashion last Sunday with a 17-13 conquest of the Packers. Again their defense was outstanding, as the defending champs were limited to a single touchdown.

Jalopy stock car racing continues Saturday night at 8 at Lincoln Speedway with a fireworks display as an added attraction to the regular schedule of two 10-lap heats and a 25-lap feature for the sportsman-modified and strictly stock regulars. AS NAVIGATOR

Lt. Ralph Frederick Guise, son of Mr. and Mrs. Ralph W. Guise, Lincolnway East, has been assigned to James Connally Air Force Base, Tex., for undergraduate navigator training.

A 1955 graduate of Gettysburg High School, Guise received his

Students in the navigator program receive basic, radar and celestial navigation training in the T-28 aircraft, the Air Force "flying classroom." After their 35-week training period at James Connally AFB, the officers are assigned to Air Force installations throughout the world, serving with Strategic Air Command or Military Air Transport Service units.

Mackinson missed one feature altogether. That was two weeks ago when Bobby Hersh buzzed home just ahead of Leroy Felty and Bobby Abel. Other than that the Delta Dart has dominated the checkered flag since starting the string on July 29 when he captured the 50-lap midseason championship encounter.

Strictly stock point honors are still up for grabs with Paul Keller and Johnny Laughman, now 1-2, being challenged by Willie Muselman, Edgar Boerner and Rich Christine.

Use Local Spade  
To Break Ground

ST. PETERSBURG, Fla. — A gaily decorated shovel bearing the name and colors of Gettysburg College will plunge into the soil of a palm-strewn waterfront tract next Sunday to help celebrate a bold experiment in liberal education.

The shovel is one of several hundred sent by colleges across the nation to be used in groundbreaking for Florida Presbyterian College's \$12,500,000 permanent campus. Ranging from a toy spade from a women's college to a tool-worn shovel used in a student work project, they will go to the U.S. Peace Corps after the groundbreaking as a goodwill gesture from American higher education.

Wielding the tools will be officials, professors and early supporters of FPC's precedent-setting plan. They will form a human chain around the outline of the first building to go up.

"We felt that the traditional practice of having one honored guest turn a shovelful of earth has been over-used," Dr. William H. Kadel, FPC president, said. "The mass participation, however, will symbolize three things—our willingness to try new methods, our heritage from older colleges and the widespread enthusiasm to help us reach our goal."

President Kadel is the youngest son of Mrs. J. H. Kadel, W. Middle St., and a graduate of Gettysburg College in the class of 1935.

## Cut Of The Past

From the Files of the Star and Sentinel and The Gettysburg Times

**TWENTY-FIVE YEARS AGO**  
Drive Against Code Violators Nets 9 Drivers: Nine motorists were brought to account over the weekend by highway patrolmen from the Gettysburg substation as they continued their drive against violators of the state motor code. While the offenses charged cover a wide variety of violations the greater number of them are for reckless driving of one sort or another.

Information against all of the offenders have been laid before justices of the peace in many parts of the county. Out-of-the-state drivers were compelled to post bonds covering the fines and costs assessed by the justices, while Pennsylvania drivers will be mailed copies of the information that have been laid against them.

Miss Haines, J. H. Slaybaugh Wed In Carlisle: Miss Pauline L. Haines, 112 East Market Street, York, and J. Hoke Slaybaugh, Biglerville, were united in marriage Sunday evening at a ceremony performed in Grace United Brethren Church, Carlisle, by the pastor, the Rev. Dr. I. S. Ernst. The wedding ceremony climaxed "The Home Builders Service" — a special service honoring over a hundred persons who were married by the present and former pastors of Grace Church and beginning a program emphasizing home life and sanctity of marriage being carried out throughout the United Brethren denomination this fall and winter.

Msgr. Bradley, President Of Mt. St. Mary's Dies: The Right Rev. Monsignor Bernard J. Bradley, president of Mt. St. Mary's College, Emmitsburg, since 1911, died suddenly in Providence hospital, Washington, D. C. at 12:10 o'clock this afternoon from hypostatic pneumonia. Monsignor Bradley became ill on Saturday and was taken to the Washington hospital on Sunday where he failed rapidly.

Miss Schriver, Former Teacher In County, Dies: Miss Sadie Alice Schriver died Monday evening at 11:20 o'clock in the Annie M. Warner hospital after an illness of 17 days from acute arthritis and a heart condition. She had been admitted to the hospital on September 11. Miss Schriver was the youngest daughter of the late Jacob C. and Elizabeth (Lenoll) Schriver and was born in Huntington township.

She spent her early years in Adams county. She attended the public schools of the county and also Professor Sheely's normal school in Gettysburg. Later, in 1894, she was graduated from the Shippensburg State Teachers college.

During her service as a teacher, Miss Schriver taught in the public schools of Gettysburg and the county; one term in the Altoona and 25 years in the junior high school at Lakewood, New Jersey.

**Re-surfacing Of Streets To Begin On Thursday:** The work of preparing selected Gettysburg streets for re-surfacing will be started Thursday morning, it was announced following a conference of the members of the borough highway committee in the office of President C. W. Epley Monday evening.

Patching will be started on Springs avenue, where the highway committee has decided that the street shall be re-surfaced with stone chips and tar from the railroad to the crest of Seminary ridge.

Material is on hand for patching holes in the street so that a smooth surface will be offered when the new surfacing material is applied later. Several days will be required to patch Springs avenue.

## Today's Talk

### HERE AND THERE

A rut is the worst place in this world to get into. Ask the driver of any car. Ruts rattle me. A man isn't a philosopher who gets into them—and stays there.

Yet what a countless number of folks get into life ruts and have no inclination to get out! One of the ways to get out of a rut is to travel. Another is to talk to as many different kinds of people as possible. Another is to do things your way and not the other fellow's. This applies to the manner in which you think and act as well.

We should never lose track of the fact that we are human beings. "Straying in a world of gloom," as some would have it, I would say, rather, that we are straying in a world of sunshine and beauty. No one need stay long in a rut.

By traveling around you pick up golden nuggets that other people have lost through holes in their pockets.

Here and there are inspiration and cheer for all.

During my life span I have talked with great authors, great artists, men high in government, lecturers of note, and numerous hotel managers. I learned something from each.

I have fed upon the sight of broad Western fields, growing cities, and found a great uplift in new books.

Here and there you will find all things. Walk around. Observe. Ask questions. Do the unusual thing every once in a while. Think!

Tomorrow Mr. Adams will talk on the subject: "Brave Without Fear"

## Just Folks

**AT THE START OF THE ROAD**  
Here is the road, and here's the chart of dangers;  
Be not too quick to heed the words of strangers.

Far lies the goal, through scenes of filth and beauty;  
Let neither one withhold you from your duty.

Play when you may, and take your need of pleasure;  
But let it neither drain your strength nor treasure.

Passions you have, but rule them in this fashion:  
Make what is best for you your strongest passion.

If you've the will to reach that distant station,  
Then you can turn your back on all temptation.

Smooth tongues shall say your passions rule and bind you;  
Resist those pleadings; put them all behind you.

Here is the road; the distance none can measure.  
Soon you shall see 'tis strewn with wrecks of pleasure.

Theirs is an old and oft repeated story:  
They thought themselves unfit for deeds of glory.

They heard and fancied they were doomed to weakness.  
Son, yield to passion no such abject neekness.

Think of yourself as fit to be a master;  
Make this your passion, and escape disaster.

## WEATHER AID TO HARVESTS

**HARRISBURG (AP)** — Ideal weather conditions last week sparked a good harvest of tobacco, tomatoes, peaches, apples and cabbage in Pennsylvania, says the State Crop Reporting Service.

However, the service added Tuesday in its weekly summary of crop conditions, fall plowing was limited in many sections because of hard, dry ground.

The service said cauliflower and snap beans are being picked and harvest of fall snap beans for fresh market use will soon get under way in Franklin County. It added:

"McIntosh apples are beginning to be picked in the northwest while harvest of Summer Rambos is finishing in most areas. Cortlands are now being picked in the east central area. Staymans, Romes, McIntosh and Delicious are sizing very nicely. Picking of winter varieties will start this week in the south."

## Netherlands Seeks Big Defense Budget

**THE HAGUE, The Netherlands (AP)**—Queen Juliana today asked her people to tighten their belts and pay for a record military budget because of the increasing danger of war.

Addressing the combined houses of Parliament in the 700-year-old Knights' Hall, the Queen said some taxes will be raised and annual defense expenditures for the first time will pass the two billion guilder mark — to 2,061,000 guilders (\$572 million) from the present 1,850,000 (\$514 million) in 1963 the defense outlay is to rise to 2,136,000 (\$593 million).

## 80 British Troops Leave Kuwait Area

**KUWAIT (AP)** — British forces began a gradual withdrawal from Kuwait today.

A big Beverly transport plane headed out over the Persian Gulf carrying the first men to leave — 80 sunburned soldiers from the 2nd Parachute Battalion — to Bahrain.

The British troops were flown in at Kuwait's request last July after neighboring Iraq laid claim to the little Sheikhdom, a former British protectorate rich in oil.

The British agreed to withdraw after members of the Arab League, with Iraq vigorously dissenting, voted to send in forces to protect Kuwait's sovereignty.

The omission from a dual program of motorcycle and stock car racing resulted due to owners and drivers commitments to meet Sunday night schedules at other tracks in the area.

Qualified to start in the first feature will be 15 drivers already qualified from three heat races run on the time-shortened program, another five will qualify from the added consolation race.

## A Lovelier You

By MARY SUE MILLER

**YOU ASKED FOR IT, MISS TEEN?** Herein are questions and answers about bras and girdles that help solve teen figure problems. The questions are those most often addressed to this column. So the chances are a girl with problems will learn how to overcome them, if she just reads on.

What type of bra looks best with sweaters and knits. The newest solution is a seamless, boneless, bandeau with molded polyne cups. Preshaped, polyne insures a naturally rounded line and firm support, particularly for matured

When should a girl begin wearing a bra? When bosom development has begun. "Beginners" bras are made with Helanca stretch cups and light cotton bandings.

Are contour bras taboo for teens? No, not if a girl is old enough to wear adult clothes and requires a built-up bra for better figure proportions. Numerous contour styles are designed for young figures. Fabrics are tissue-weight and the curve is natural.

What should be worn under formal? A strapless brassiere, contoured and longline, offers comfortable control for both bosom and waist. Fashioned of embroidered cotton, it's pretty and practical, too.

Is there anything that would give a no-hip girl enough hip to hang a skirt on? The trick is turned with uplift pantie girdles, seemed to round the figure.

Do you have to wear a "harness" to smooth heavy hips and thighs? Try an elastic long-leg pantie girdle, one with a three-inch cuff and satin elastic front and back panels. Holds like iron and feels like a feather!

**ENHANCED BOSOMLINE**  
For a more attractive bosom, write me: A Lovelier You, Box 158, The Gettysburg Times, Dundee, Ill., requesting my five-cent pamphlet, ENHANCED BOSOMLINE. Don't forget to include five cents in coin and a LARGE, SELF-ADDRESSED, STAMPED ENVELOPE. ENHANCED BOSOMLINE contains detailed instructions on how curve and lift can be improved through exercise, posture and corsetry.

**LOS ANGELES (AP)** — Barring a National League playoff series here — and the only thing less likely to be held here is the Florida State Fair — this will be the Coliseum's last night as a major league baseball park.

The Dodgers, fading from the 1961 National League picture along with their vast stadium, play their final home game tonight against the Chicago Cubs, who beat them 7-3 Tuesday night. The loss dropped the Dodgers five games behind league-leading Cincinnati.

**SCREEN CURIOSITY**  
The Coliseum, largest park in the majors, is hardly as rich in baseball history as the Dodgers' previous home in Brooklyn. But, in four seasons, it has had a few moments that will not be forgotten.

The Coliseum also is the home of one of the greatest curiosities in baseball history—the left-field screen. In four seasons, 741 home runs have been hit at the Coliseum, and something like 80 or 85 per cent of them have gone to left field, sailing over or near the screen.

The home run records expected to be set here never materialized. But, because a 275-foot fly ball could drive in as many as four runs, the screen did invest each game with an extra element of suspense.

Perhaps one of the most exciting games was the final playoff of 1959, when the Dodgers took the National League pennant in a 12-inning thriller.

**DREW 93,103**  
Earlier in the same season, on May 7, a crowd of 93,103 watched the Dodgers and Yankees play a benefit game for Roy Campanella, the paralyzed Dodger catcher. It was the largest turnout in U.S. baseball history.

The most curious baseball innovation introduced here, besides the screen, was the bugle call. Dozens of fans started bringing horns to the park when the Dodgers came to bat. The blew cavalry calls and the crowd yelled: "Charge!"

Tuesday night, however, a different call was intoned by a musician in the left-field stands. In the top of the fifth inning, while the Dodgers were changing pitchers, the man with the horn played "Taps."

Perhaps he feels the same way about the Coliseum as Dodger Manager Walter Alston, who recently remarked: "I'll be glad when we get the hell out of here."

## Reds Reduce Number To 5; Spahn Fails Again To Win 20th; Cardinals Win

By MIKE RATHET  
Associated Press Sports Writer

They're playing taps for the Dodgers in Los Angeles while Cincinnati's rambunctious Reds ride their pennant-bound express to their first National League flag in 21 years.

The Reds, a patchwork outfit that includes a host of youngsters and a batch of castoffs, ballooned their lead to five games over the Dodgers Tuesday night by walloping the Pittsburgh Pirates 10-1 for their seventh victory in the last eight games.

The triumph, coupled with Los Angeles' second straight loss to the seventh-place Chicago Cubs, 7-3, reduced the Reds' magic number to five. Any combination of five Cincinnati victories or Dodger defeats will give the Reds their first pennant since 1940.

**FREEZE HITS TWO**

It was a typical story for the Reds as trade acquisition Gene Freeze smacked two homers, including a key three-run shot in a seven-run fourth-inning rally, and 24-year-old Jim O'Toole won his sixth in a row bringing his pitching record to 17-9.

San Francisco and Milwaukee players hammered four homers each before Ed Bailey's ninth-inning single drove in the winning run for the Giants' 11-10 victory. St. Louis blanked Philadelphia 3-0 as Curt Simmons five-hit his former teammates.

O'Toole stopped the Pirates on seven hits, allowing their only run in the fifth on Hal Smith's single, a double by Bill Mazeroski and an infield out. The Reds laced Pittsburgh starter Bob Friend (14-18) for seven runs in the fourth. Freeze's solo shot in the seventh, his 26th homer, ended the scoring for the Reds, who pounded Friend and three successors for 15 hits.

**MAYS' GRAND SLAM**

Bob Anderson (7-9), who hadn't completed a game in 10 previous starts, went the route for the Cubs and knocked in the winning runs with a two-run homer in the fourth.

Bailey's single settled a homer battle. Willie Mays, who smashed a grand slam, Orlando Cepeda, Jim Davenport and Bailey connected for the Giants. Joe Adcock Roy McMillan, Ed Mathews and Frank Bolling homered for the Braves. Reliever Stu Miller (14-4) won it with the loss charged to Carl Willey (5-12). Warren Spahn was sent to the showers in the second inning without victory No. 20.

## HARRY CRAFT TO HEAD COLTS

HOUSTON AP) — Harry Craft, Houston's last minor league baseball manager, will lead the city into the major leagues.

Craft, 46, signed a two-year contract Tuesday as field manager of the Houston Colts, a 1962 National League entry.

Terms of the contract were not announced.

Craft was summoned from the "brain trust" of Chicago Cubs coaches in mid-season to manage the American Association Houston Buffs.

He managed the Kansas City Athletics from the middle of 1957 until the end of the 1959 season, finishing seventh each year.

The Buffs were in fifth place in the association when Craft arrived July 16. They won 32 of their last 54 games to squeeze into fourth place and the league playoffs.

Craft started his major league career in 1937 with the Cincinnati Reds and completed his playing days in 1948.

The Ellisville, Miss., native started managing in Class D in 1949.

## HOPES INJURED WILL BE READY

PHILADELPHIA (AP) — Coach Nick Skorich of the Philadelphia Eagles is hopeful that treatment will enable fullback Clarence Peaks and defensive stalwart Tom Brookshier to play against Washington Sunday in the Eagles' second National Football League game.

Skorich told the Philadelphia Football Writers Club Tuesday that back Ted Dean and defensive back Don Burroughs, who

also were injured in the Eagles' 27-20 victory over Cleveland, will be ready this Sunday.

Skorich said Irv Cross also will be set to play.

Peaks suffered a sprained right elbow and Brookshier a charley-horse of the left thigh. Dean pinched a shoulder muscle while Burroughs dislocated a thumb.

Cross had suffered a concussion in the Eagles' final exhibition game.

## ZERO HOUR IS TONIGHT FOR ROGER MARIS

Associated Press Sports Writer

BALTIMORE (AP)—Tonight is zero hour for Roger Maris. Or is it?

The crew-cut slugging star of the New York Yankees has just one game—four or five at bats—in which to slam the three home runs he still needs to eclipse Babe Ruth's home run record of 60 in a season.

The 27-year-old right fielder's bat was almost completely muffed Tuesday night as the Yankees assured themselves of at least a tie for the American League pennant with a doubleheader split against Baltimore. New York won the second game 3-1 after Steve Barber of the Orioles had outpitched Whitey Ford 1-0 in the opener.

**LONG FOUL DRIVE**

Maris, with 58 homers in the bank, came to bat nine times. The closest he came to hitting a home run was a long drive into the right field bleachers—foul by some 20 feet—in the seventh inning of the nightcap. His only safety was an infield single in his sixth time at bat. In his other tries, he walked, fouled out twice, grounded out twice, flied out twice and struck out.

"Well, I've got to be a Houdini now to do it in 154 games," Maris said.

"I had a bad night," he admitted, "and when I'm bad, I'm really lousy. I've got nobody to blame but myself. I was over-anxious. I had some good pitches to hit at but I also swung at some bad ones. Those pitchers (Steve Barber, Skinny Brown and Hoyt Wilhelm) had me swinging at their pitch. I should have waited them out a little more and forced them to come in with my pitch, but I was too anxious."

**PLAY NINE MORE**

Commissioner Ford Frick has decreed that if Ruth's hallowed homer mark is equalled or broken, it must be done in 154 decisions. That was the number of games which constituted a season in 1927, when the Babe set his record. The current American League seasons runs 162 games.

"As far as Mr. Frick is concerned," Maris told reporters Tuesday night, "I've got only one more game. But physically, as far as my body is concerned, I've got nine more to play."

A crowd of 31,317, unheeding warning signals sent ahead by Hurricane Esther, came out to see whether Maris could break the Municipal Stadium jinx which has held him homerless in six previous games. The turbulent lady, true to her gender, was late but there was enough wind blowing in from right field to make Roger's job tougher. Roger, a left-hander hitter, was able to hit only two balls out of the infield all night.

## Yanks Clinch Tie For AL Flag; Maris Homerless; Detroit, Chisox Winners

By MIKE RATHET

Associated Press Sports Writer

Roger Maris was held to an infield single Tuesday night as the New York Yankees clinched at least a tie for the American League pennant by splitting a doubleheader with Baltimore.

Maris must hit two home runs tonight to officially tie Babe Ruth's home run record.

If he doesn't, he'll have eight more regularly scheduled games in which to tie or surpass the Bambino's 60-homer record of 1927, but will have to take the asterisk along with any record under the edict handed down by Commissioner Ford Frick.

That's the prospect facing Maris, who has 58 homers after failing to connect in nine tries against the Orioles' sharp pitchers, as he prepares to take his final official shots against right-hander Milt Pappas (12-8) if Hurricane Esther doesn't intervene.

**DALE WINS 12TH**

The honor of clinching the tie for the Yankees' 26th pennant, their 11th in 13 years and the first under rookie manager Ralph Houk, went to left-hander Bud Daley who beat the Orioles 3-1 in the nightcap with a five-hit.

Steve Barber won the opener for the Birds 1-0 with a four-hit job for his eighth shutout, tops in the majors. Maris walked in the first, then failed to get a hit in three other at-bats.

In the second game, Maris fouled out in the first, got an infield single in the third, grounded out in the fourth, hit a long foul in the seventh before flying out to center and struck out in the ninth for a 3-for-36 performance at Baltimore this season.

**SKOWRON HOMERS**

Bill Skowron took up the homer in Pennsylvania.

Under the original language of the 1959 law, any of the four licenses authorized by the statute would have had to be reconsidered as new license applications each year.

**REMOVES JURISDICTION**

Another revision in the law removes the Harness Commission from the jurisdiction of the State Agriculture Department. From now on the commission will be an independent agency.

This provision is expected to spark some administrative changes inside the three-man commission which holds its next meeting Oct. 16.

Members are Chairman L. B. Sheppard, a Hanover Republican, and Democrats Edward Kane of Newtown Square and Martin Cusick of Sharpville.

The Pennsylvania Council of Churches had objected strenuously to another provision of the bill signed by Lawrence today.

**PERMIT MORE VOTING**

It would permit referenda every four years in counties where voters have rejected the establishment of pari-mutuel tracks in their areas.

The original law provided that the issue of permitting tracks was dead forever once voters had either approved or rejected their operation.

The church council objected that the new change was unfair because it would permit another referendum in counties where voters rejected track operations but not in counties where their operation was approved previously.

The bill incorporating the changes was rushed through the General Assembly in the final hours of the 1961 session.

## SORRY ABOUT TEAM IMAGE

PHILADELPHIA (AP) — "We are a college with a team, not a team with a college."

The words came from Jim Bonder, football coach at West Chester State College, in answer to charges by Dr. T. Noel Stern, who said he was dismissed as president because he refused to favor athletics over academic studies.

Bonder, in a statement read Tuesday to the Philadelphia Sports Writers Football Club, said:

"We have bona fide students who participate in football."

**REGRETTED IMAGE**

His statement said he deeply regretted the image "which our former president has drawn depicting West Chester State College."

"During the past six years we have lost nine football players because of academic deficiency," Bonder said. "If the former president wishes to deprecate and minimize our athletic success he will have to reconsider conclusions he has drawn, for his facts have no validity. They are untruths."

He said his state college football champions "... came upon athletic success through hard work and honesty." He added that

slow thinkers "could never have achieved the athletic success we have enjoyed."

**TIGERS WIN EASILY**

In the opener, Barber (17-11) had the Yankees completely in control while Baltimore's first inning run stood up and made Whitey Ford (24-4) the loser. The Orioles scored when Brooks Robinson singled, reached second as the ball got by Dec Lopez and scored on Jerry Adair's double.

The Tigers scored four in the first inning on singles by Billy Bruton and Norm Cash, doubles by Al Kaline and Rocky Colavito plus two wild pitches by Ken McBride (12-14) and an error. That was enough for Don Mossi (15-7), although he was tagged for homers by Eddie Yost and Steve Bilko in a four-hit pitching performance.

## STATE FISH COMMISSION LACKS FUNDS

HARRISBURG (AP)—A lack of funds has forced Pennsylvania's Fish Commission to seriously consider a drastic cutback in operations, reports executive director Albert M. Day.

Day said in an interview Monday night the commission already is studying a four-pronged plan aimed at cutting into heavy expenses.

He said the plan calls for the closing of division offices at Conneautville, Lock Haven, Honesdale, Somerset, Huntingdon and Hellam; cutting down on all field operations; reducing hatchery operations; and keeping personnel such as stenographers, clerks, researchers and administrators down to a minimum.

"We are not trying to decrease the commission's service to the public," Day explained. "We merely want to cut down on expenses. It's a case of needing to tighten one's belt a few notches in order to keep the outfit within our income."

Day estimated that closing the division offices alone would save the commission about \$25,000 a year. If the plan is adopted, he explained, division supervisors will begin working at home, thus eliminating the costs of rented offices.

As for the reduction in personnel, the official promised that the commission would attempt to find openings at its headquarters in Harrisburg for those laid off in the field.

Day also reiterated an earlier announcement that the commission is considering closing Fisherman's Paradise in Centre County—a stream that is stocked with large-size trout and opened to anglers during a special period each season.

All the planned cutbacks, however, are still in the discussion stage, he added. A final decision will not be made until after conferences with Gov. Lawrence's budget staff, he stated.

## Porterhouse Steak

Among the choicest of meat cuts are tender beef steaks, delicious when broiled to the exact degree you prefer and served sizzling hot. The porterhouse steak here shown represents that perfection. Stuffed zucchini squash is served with it.

Beef steaks for broiling are cut from the loin and rib sections, the tenderest portion of the beef animal, and are distinguished by their shape and the amount and shape of the bone they contain.

Porterhouse steaks are the largest steaks in the short loin. They contain the loin strip and tenderloin muscles, also a T-shaped bone. The T-bone steak is the same as the porterhouse except that the tenderloin is smaller.

HERSHEY, Pa. (AP)—The Philadelphia Warriors of the National Basketball Association have opened training under new coach Frank McGuire.

McGuire, who came to the Warriors from North Carolina, Monday greeted 13 candidates.

During a briefing, McGuire told the group that his aim this year is "to blend our personnel into a team unit."

Club and rib steaks are similar in appearance and may or may not contain the rib bone, depending on their thickness. Other choice steaks are the filet mignon, cut from the tenderloin. All of these steaks are tender and suitable for broiling.

The secret of success in broiling a steak lies in following the fundamental rule of all meat cookery — to avoid too high a temperature in cooking.

Broiling is a method of cooking by dry heat. The steak is placed on a broiler rack at a sufficient distance from the heat so that it cooks at a moderate temperature.

### Queen Mary Slot Machines To Go

SOUTHAMPTON, England (AP)—Twenty slot machines were stripped from the transatlantic liner Queen Mary today—because the passengers weren't interested. The machines had been installed as an experiment. As the liner docked Monday night from New York, a Cunard Line spokesman said: "There was never any great rush for them. But it was necessary to keep them in for about three voyages to judge the reaction of passengers."

### Cancer Kills 2 In Same Family

ST. LOUIS, Mo. (AP)—A man and his daughter died seven minutes apart Monday of cancer. They were Thomas Francis McGowan, 77, a retired contractor, and Marie Dollard, 52, both of St. Louis. Each had been ill about two years.

Mrs. Dollard is survived by her husband, McGowan had two other sons and another daughter.

Steaks for broiling are best cut 1 to 2 inches thick.

Set the regulator for broiling. Place the steak on the broiler rack and insert the broiler pan and rack so the top of a 1-inch thick steak is 2 to 3 inches from the heat. For a 2-inch thick steak make the distance 3 to 5 inches. When one side is browned, season with salt and pepper, turn and finish cooking on the second side. Then season second side.

Broiled steaks and chops are seasoned after broiling because seasoning tends to bring moisture to the surface of uncooked meats and retards broiling.

Steaks cut 1 inch thick require 18 to 20 minutes for rare steaks and 20 to 25 minutes for medium-done steaks. Steaks cut 2 inches thick require 30 to 35 minutes for rare steak and 35 to 40 minutes for medium-done steak.

### CATHOLIC PLAN 2 NEW SCHOOLS

HARRISBURG (AP)—The Harrisburg Roman Catholic Diocese has set next spring as the target date for beginning construction of a new \$2.2 million high school in this area.

At a news conference Monday, the Rev. Francis A. Kirchner, vice chairman of the board of pastors for 21 Catholic parishes, said the new school will be built on the west shore across the Susquehanna River from Harrisburg.

The 32-acre site of the new school will be on U.S. 15 between the Gettysburg and Shiremans-town roads near the Camp Hill by pass. Father Kirchner stated.

He added that the school should be ready for occupancy in the fall of 1963. It will serve 1,000 students and include modern classrooms, an auditorium, gymnasium, cafeteria and library.

Father Kirchner also announced that the diocese is planning another new school east of Harrisburg and a \$170,000 addition to Bishop McDevitt High School in Harrisburg.

### Youth To Help Man With Big Storms

TRIBUNE, Kan. (AP)—Randy Brubb came home from kindergarten with his first request for money.

"I think it's Red."

"What his last name? Cross?" "Yep, that's it. Red Cross."

### MEETS WITH KHRUSHCHEV

MOSCOW (AP)—Belgian Foreign Minister Paul-Henri Spaak arrived in Moscow Monday night for talks with Soviet Premier Khrushchev.

## 12 FAMILIES OFF FOR NEW CHICO HOMES

SCHILLSBURG, Pa. (AP)—In less than two weeks, 12 New York families—hoping to escape any nuclear attacks—expect to be settled in their new homes in Chico, Calif., where they "could best build the lives of our kids."

The families, 38 persons in all, arrived in this western Pennsylvania town from their New York City area homes Sunday and Monday on their way west. They planned leaving Shawnee State Park, their stopover spot, today.

Alvin Bauman, the group's spokesman, said, "We ought to make it easily by Oct. 1."

As they move west by car, the migrants will stop at public parks and camps.

### ROUTE IS SECRET

Bauman wouldn't say what route they will follow because "we don't want to be followed by the newspaper and TV men."

The families left the New York Metropolitan area because they believe it would be a prime nuclear target and major radioactive fallout zone in a nuclear war. But a Titan missile base is under construction near Chico, Bauman was reminded.

"If we were looking for complete safety, we probably would leave the country," Bauman said. "We knew of the missile base at Chico before we decided on it."

"We were willing to compromise some safety for the best possible place to live where we can make a positive contribution and where we could best build the lives of our kids."

### Pa. Food Merchants Favor Stamp Plan

PITTSBURGH (AP)—The Pennsylvania Food Merchants Association wants the Federal Government to implement a food stamp plan throughout Pennsylvania, saying "it is a respectable way of taking care of needy cases."

The merchants, meeting in the last day of their two-day convention Monday, voted to ask the government to extend the plan currently in experimental operation in Fayette County and seven other areas in the county.

Executive Director A. P. Vicks said the stamp plan "gives them (needy families) dignity and respectability. Going to a free food distribution center is embarrassing to many."

### County Soldier Takes Radar Course

PFC Hammond M. Geyer has completed the 33-week radar equipment repair course at the Army Signal School, Fort Monmouth, N. J.

Geyer was trained to test, repair and maintain ground radar equipment. He also received training in the principles of electricity and electronics as applied to basic receivers, transmitters, indicators and service components.

He entered the Army last October.

The 20-year-old soldier, son of Mr. and Mrs. Hammond W. Geyer, Cashtown, is a 1959 graduate of Gettysburg High School and attended Pennsylvania Military College in Chester.

### Rush Order For Troop Vehicles

WASHINGTON (AP)—The Army put in a rush order Monday for armored troop-carrying vehicles to meet its urgent requirements, presumably in Germany.

It announced plans to award a "minimum add-on contract" to the FMC Corp., San Jose, Calif., for expedited delivery of M113 personnel carriers of the type now being sent to Germany to give U.S. infantry divisions greater mobility.

The Army declined to say how many additional vehicles were being ordered.

JOHNSTOWN, Pa. (AP)—Bethlehem Steel Co. is undertaking a multi-million dollar modernization of the bar mills at its Johnstown plant.

John E. Jacobs, vice president of steel operations, said Monday that the project will begin immediately and is scheduled for completion in 1963. He did not place a price tag on the program.

## Growing Din About Peril Of Inflation Significant

Is inflation a real threat again or just an angry word in a three-sided debate between government, labor and business? In this, the first of four articles on the chances of another upward whirl in the cost of living, Sam Dawson, AP business news analyst, discusses why President Kennedy is mixing into steel and auto wage-price pattern setting.

### By SAM DAWSON

NEW YORK (AP)—On all sides today voices are being raised to urge others not to arouse the half ogre of inflation. The growing din warns you that he may soon start to stir.

Everyone is against inflation. And everyone blames the other fellow for it. It's the fault of labor, or business, or government, depending with which side you're aligned.

In simple terms inflation means that your dollar seems to buy a little less all the time. It can take the fun out of getting a pay boost, or higher prices for your goods or services, or the property you sell or rent.

### STEEL WAGES GOING UP

The cost of living—which is what most folk think of when they speak of inflation—took a big sput after World War II, another one during and after the Korean fracas, a more moderate spurt from 1955 to 1958, and then crept slowly higher until this summer.

It takes \$128.10 to buy today what you could have bought for \$123.70 in 1958, or \$114.70 in 1954, or \$104.80 in 1948—or \$60.30 in 1941.

The sudden raising of voices at this time is because three factors with disturbing possibilities are under way or expected shortly.

Steel wages are going up next month and the steel companies would like to raise prices. Steel is a basic material for many consumer items.

### AUTO PAY HIKES

Auto pay hikes—often a pace setter—are being negotiated and motorists wonder what that will

mean in terms of prices of the new models.

And the government is increasing its spending and therefore its borrowing when business activity is already on an upswing.

So now President Kennedy is warning against steel and autos setting off a wage-price spiral in other parts of the economy. Labor says its demands needn't cause price hikes. Management says it can't promise to hold the price line when costs are rising.

### PRICES FAMILY STABLE

And business and banking experts are asking if the government's pouring more money into the economy than it is taking out in taxes won't pump up the money supply enough to set off an inflationary boom that could get out of hand.

And the public? It should react but probably won't—until the cost of living actually spurts.

For one thing the public at the moment is still in a powerful bargaining position. Because of over capacity to produce and keen competition in many industries the prices of goods have been fairly stable. The cost of services has kept on rising. But in most goods themselves you can shop for bargains.

### PRODUCTIVITY UP

Rising productivity pops up frequently in the present name-calling over the threat of more inflation. In most cases it means using machines to get more goods for less man hours of labor, whether in the factory, the office, or on the farm.

A sizable part of the present unemployment has been laid to this by the unions. The President has been told by

## THREE INJURED IN GANG WAR

PHILADELPHIA (AP)—Three youths were wounded Monday night by gunshots fired from a speeding car in what was believed to be an outbreak of gang warfare in South Philadelphia, police reported.

Ironically, the wounded boys all had played the parts of troublemakers in a television documentary on Philadelphia gangs filmed here last December.

Police quoted witnesses as saying the shots apparently were fired without provocation and may have been intended for someone else. Officers said that a few moments after the first shootings, shots from the car were fired at another group of boys nearby.

The wounded—Nathaniel Fleming, 17; Thomas Reese, 15, and his brother, William, 16, were taken to Einstein Medical Center. Sgt. Frank Winfrey of the Juvenile Aid Division theorized the shootings are "the start of a gang war."

Police questioned all known gang members in the neighborhood.

his economic advisers that this rise in productivity can let industry absorb the upcoming wage boosts, if they are moderate, without price rises. The unions hold that labor should get some of the gain in higher wages. It charges that otherwise profits are all set to go up sharply.

Tomorrow: Is inflation all bad? What causes it?

WATERBURY, Conn. (AP)—The Board of Aldermen unanimously approved Monday a proposal that able-bodied men on relief be put to work on Civil Defense projects, including construction of fallout shelters.

DISTRIBUTIONS OF FREE FOOD IS INCREASING

By THE ASSOCIATED PRESS  
Is Uncle Sam's free food program good or bad for the country?

Does it, as some complain, make able-bodied men and women shiftless so that they spurn work as long as the larder is well stocked?

Does it cut down on the grocers' sales?

What about reports that allegedly needy have driven to distribution stations in Cadillacs and carted away free rations?

Secretary of Agriculture Orville L. Freeman has no doubts about the merits of the program.

SERVE HUMAN NEED

He says: "We are using America's food abundance. As long as there are hungry people in this country, or as long as families have inadequate diets because they cannot buy the food the farmer produces, we intend to find ways to use the unsurpassed capacity to serve human need."

The program was expanded shortly after President Kennedy took office. Additional foods were added to the direct distribution list, and more needy persons were added to the rolls, both at the President's direction. As a result food distribution is running at about three times the level of a year earlier.

The Agriculture Department estimates that slightly more than 14 million children will participate in the school lunch program this year. It also reports that 6.8 million persons in 46 states, the District of Columbia and the territories participated in the direct distribution program during the 1961 fiscal year ended June 30. This compared with 3.4 million a year earlier.

FOOD STAMP PLAN

Additionally, 248,000 persons are participating in a food stamp plan under which the government makes stamps available to needy persons for purchase of foods at regular grocery stores. The stamps are redeemed from grocery stores by the department

through the banking system. Under the direct distribution plan certain foods acquired by the Agriculture Department under its price support and related surplus disposal programs are donated to the states, the Bureau of Indian Affairs, and to the territories for use in the nonprofit school lunch program and for needy persons in charitable institutions and family units.

With a program so widespread and vast, it was inevitable that complaints of abuses would arise. However, a nationwide survey by The Associated Press uncovered surprisingly few instances of out-and-out chiseling.

For example, John Sanford, supervisor of the commodity unit of the Oklahoma Public Welfare Department, says he doesn't think able-bodied men are turning down work to get the food.

"There isn't enough to justify turning down a job," he observed. Marvin E. Larson, Kansas welfare director, said his office had received a complaint that a woman appeared in a Cadillac and picked up free groceries.

"That checked out to be a volunteer church worker who was picking up an order for someone incapacitated," Larson added.

Floyd Quinisk, executive secretary of the Wichita Independent Businessmen's Association, which includes many grocers, commented:

"I've had absolutely no complaints, and our members are in the habit of speaking out at everything they don't like. They must feel that these are surplus foods, and it's better to give them to those who need them than let them go to waste."

OLYMPIA, Wash. (AP)—Monrad C. Wallgren, former Washington governor, U.S. Senator and chairman of the Federal Power Commission died Monday. He was 70.

Wallgren, who went by the name Mon, was a Democrat and a close friend of former President Harry S. Truman. He served in the U.S. House of Representatives from 1932 to 1940, in the Senate from 1940 to 1944 and as governor from 1944 until 1948.

He had been hospitalized since July 8, when he was injured in a traffic accident. His right leg was amputated. Doctors believed he had nearly recovered but early Monday he had a relapse.

Given in marriage by her father, the bride wore a long white gown of peau de soie. The portrait neckline was embellished with re-embroidered Alencon lace trimmed with tiny seed pearls and iridescent sequins. The gown was accented by long tapered sleeves and a fitted princess waistline. The belled skirt featured appliques of the lace and swept up into a bustle back ending in a court train. Her fingertip veil of pure silk illusion fell from a crown of pearls. She carried a white satin Bible, a gift of the groom, topped with a white orchid with a shower of ribbons and white sweetheart roses.

## Episcopalians Face Test Over 4-Unit Merger

By GEORGE W. CORNELL  
Associated Press Religion Writer  
DETROIT (AP)—A crucial test neared today on a monumental proposal for uniting four major Christian denominations into a single church "truly catholic, truly reformed and truly evangelical."

The House of Bishops at the triennial General Convention of the Episcopal Church set a full day of sessions for action on the matter.

"We're in for considerable debate on it," said Bishop Henry I. Lottitt, of Orlando, Fla., chairman of the House's Committee for Dispatch of Business.

Before the church-governing council is a recommendation by its unity commission to approve merger negotiations with the United Presbyterians, Methodists and the United Church of Christ. Altogether, they have nearly 20 million members.

Moves also were moot to include the Polish National Catholic Church.

Whether the historic plan actually gets under way hinges heavily

on action by the Episcopal Church, which clings to ancient catholic concepts not found in the other strictly Protestant bodies.

Anglo-Catholic "high church" forces have mounted a full-scale assault on the plan, saying it would mean "sacrifice of essential principle," concerning the church's sacraments and historic succession.

### STARTED LAST SPRING

Many top Episcopal leaders, including the presiding bishop, the Rt. Rev. Arthur Lichtenberger, have urged launching of the merger negotiations, expressing hope the difficulties could be overcome.

The United Presbyterian Church initiated the proposal officially last spring, at the suggestion of its chief officer, the Rev. Dr. Eugene Carson Blake.

His plan also called for including any other churches besides the four that were willing to enter the broad-scale reunion effort.

Report Blood of Saint Liquefied

NAPLES, Italy (AP)—Shouts of joy resounded in Naples' Cathedral today when attendants announced that the blood of the city's patron, St. Januarius, had liquefied.

The manifestation, considered a sign of good luck by Neapolitans, was said to have occurred after 20 minutes of prayers by the congregation.

The two vials reputed to hold the blood of the saint—normally dry—were then exhibited and kissed by thousands of the faithful. In the throng were many tourists, who came here for the annual demonstration, held on the feast day of St. Januarius.

### Katanga Claims U. N. Base Seized

LEOPOLDVILLE, the Congo (AP) — Katanga's military forces claimed today that they had seized a United Nations base at Kamina from its Irish and Swedish defenders after a six-day battle.

The U.N. chief in Katanga, Conor Cruise O'Brien, insisted however, that the hard-pressed defenders still held the air strip in that vital base 280 miles northwest of Elisabethville.

As O'Brien met with reporters at his headquarters in Elisabethville, capital of secessionist Katanga, a Katanga plane attacked the building. Its bomb fell wide but the headquarters grounds were raked by machinegun fire. There were no casualties.

The claim that Kamina had fallen to the attacking Katangans, reportedly led by white officers, was made by Katanga's military radio.

### Girl Scout News

The first fall meeting of Girl Scout Troop 42 was held Sunday afternoon at the Rec Park. Officers were elected as follows: President, Sharon Nimtz; vice president, Kay Newman; secretary, Demaree Deardorff; treasurer, Carole Dayhoff; scribe, Nancy Kuhn. The leader, Mrs. Ralph Bream, announced that the new number of the troop after October 1 will be 671. The club decided to meet the first and third Wednesdays of each month from 6:30 to 7:30 at the home of Mrs. Bream. It was announced that the troop will be camping at Camp Happy Valley October 13, 14 and 15. The leaders, Mrs. Ralph Bream and Mrs. Robert Moose, were assisted by Mrs. Kenneth Dayhoff and Mrs. Allen Weikert.

PHILADELPHIA (AP) — Robert J. Buckley, a member of the New York State Bar Association, has been named assistant general manager of the Baldwin-Lima-Hamilton Corp.'s standard steel division in nearby Burnham. At the same time Monday, the company announced the appointment of Robert H. Marshall as head of the Financial Department.

WASHINGTON (AP) — Leonard G. Hagner has resigned as U.S. attorney for Delaware, effective upon appointment of a successor. President Kennedy accepted his resignation Monday.
